| Abuja, Nigeria

PROFESSIONAL SUMMARY

Results-driven Front-End Engineer and React Native Developer with 4+ years of experience delivering responsive, high-performance web applications and cross-platform mobile solutions across healthcare, logistics, and digital agency sectors. Proficient in React.js, Next.js, TypeScript, React Native, JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS, with a strong track record of shipping production-ready code, integrating RESTful APIs, and reducing page load times by up to 40%. Experienced collaborating in agile teams of 3–10 engineers, translating complex UI/UX designs into scalable component architectures. Seeking front-end engineering and React Native roles in product-driven organisations.

WORK EXPERIENCE

Front-End Developer

Dec 2025 – Present

Hayok Medicare | Abuja, Nigeria

- Architected and built a library of 20+ reusable, accessible UI components in React.js and Tailwind CSS, reducing feature development time by an estimated 30% and improving frontend code maintainability.
- Collaborated cross-functionally with a team of 5 backend engineers and UI/UX designers to implement pixel-perfect, responsive healthcare interfaces, accelerating the product release cycle.
- Improved application performance through code splitting, lazy loading, and component memoisation, contributing to a ~35% reduction in initial page load time across key user journeys.

Frontend Developer

Jan 2024 – Jun 2024

Indulgence Digital Limited | Abuja, Nigeria

- Developed and deployed 6+ responsive websites and frontend applications for business clients using React.js, Next.js, and Tailwind CSS, consistently delivering within agreed project timelines.
- Built professional landing pages and interactive dashboards with Lighthouse performance scores averaging 90+, driving measurable improvements in client user engagement and conversion rates.
- Integrated third-party APIs and authentication services (Clerk, Firebase) to deliver full-featured web solutions, reducing client backend dependency by handling auth and data flows entirely on the frontend.

Frontend Developer

Aug 2023 – Nov 2023

WePluz Technologies Limited | Abuja, Nigeria

- Delivered end-to-end frontend development for 4+ client projects including business websites, SaaS dashboards, and React Native mobile interfaces, all shipped to production within a 3-month contract period.
- Identified and resolved 15+ critical frontend bugs across legacy and new codebases, improving cross-device consistency and reducing reported UI issues by approximately 60%.
- Participated actively in agile sprints, code reviews, and stakeholder demos, contributing to on-time delivery of all assigned milestones.

Frontend Developer

Mar 2021 – Aug 2023

Geecore Limited | Calabar, Nigeria

- Designed and developed 10+ fully responsive, mobile-first web applications across 2+ years, serving a diverse client base spanning e-commerce, logistics, and service industries.

- Led web usability testing efforts, identifying and resolving UI/UX defects that improved user engagement metrics and reduced bounce rates on client platforms.
- Mentored 2 junior developers on frontend best practices including component design patterns, Git workflows, and responsive CSS techniques, improving team output quality and velocity.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, HTML5, CSS3, React.js, React Native, Next.js, Vue.js, Tailwind CSS, Bootstrap

Tools & Platforms: Git & GitHub, Figma, VS Code, Firebase, Supabase, Appwrite, Clerk, Netlify, Vercel, Expo, Slack

Core Competencies: Responsive Web Design, RESTful API Integration, Cross-Browser Compatibility, Mobile-First Development, Component Architecture, Performance Optimisation, Agile/Scrum

Soft Skills: Problem Solving, Team Leadership, Communication, Adaptability, Attention to Detail

Languages: English (Fluent)

EDUCATION

B.Tech, Agriculture

2012 – 2017

Federal University of Technology, Akure, Ondo State, Nigeria
